

The Past Pushes Forward

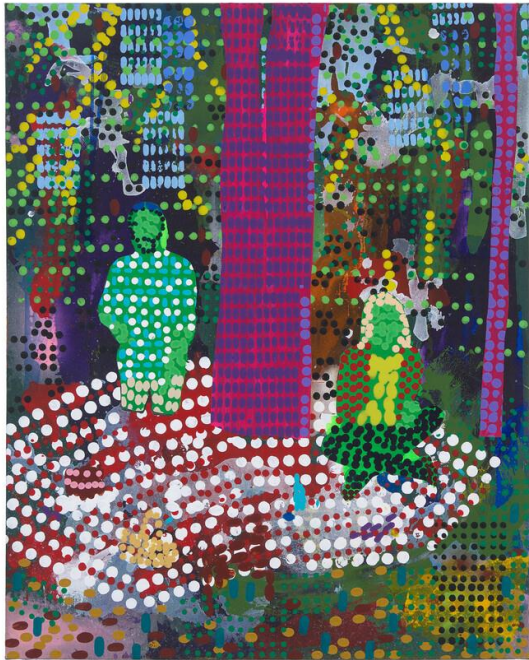

The artists featured in this exhibition express their experiences and invite viewers to connect with their own. Some of the works are raw and visceral, while others are more subtle and introspective. All of them, however, offer a space for contemplation and reflection. We hope to create a safe and nurturing environment in which visitors can explore their own personal landscapes. We believe that art has the power to help us connect with ourselves and with others, and we invite you to join us on this journey to consider the ways in which our emotions and desires are shaped by the world around us.
